

## Corrugated Paper Pallet

### Green • Paper • Innovative

Established in 1983, we have been in the conventional and heavy-duty corrugated cardboard business for more than 20 years. We have today become the most efficient corrugated company with our expertise in design and manufacturing capabilities, and investing in packaging technology for a sustainable future.

Our innovative range of products from solid to liquid packaging, are easy to set up, environmentally friendly and offering total costs benefits. We are committed to satisfying our customers with consistent quality, timely delivery, reliability and our service excellence.

### Corrugated Paper Pallet

It's light weight, strong, recyclable, safe, non-fumigated, cost-saving and increasingly in demand for export to USA and Europe Friendly to your Budget, Products, Customers and the Environment.

#### Benefits:

- **Light** Easy to handle. Only 7-10kg for a paper pallet. It's 66% lighter than a wood pallet.
- **Strong** Our heavy-duty pallet can load up to 1000kg in dynamic load and over 5000kg in static load.
- **Recyclable** It's made from recycled materials, completely recyclable and environmentally friendly.
- **Cost-saving** No fumigation is required thus savings on shipping and disposal.
- **Safe** It's clean, easy to handle and have no nails or wood splinters.

### Heavyweight

**SIZE:** 1100 x 1100 x 155 mm
